

Update January 2012

Sponsorship news

As per January 2012, HAU's sponsorship programme (daily needs, medication, clothing and schooling) has resulted in 2 sponsors from all over the world, totalling up to € 1.200,= yearly, involving 4 children from 2 families in Jinja and Kisozi. HAU wishes to thank her sponsors for their contribution. HAU is proud to announce that Stella Nangobi has passed her exams and that this promising student will soon be off to secondary school. Thanks to Stella's sponsors.

In the spotlights

Nikki, Dimitra, Merlijn and Linda (Worldschool): the chicken project

"We are from the Cambreur College in The Netherlands and have chosen your project 'Healthy Happy Chickens', because we like the subject and we think it is interesting to find a way to stop the diseases from spreading and to make sure the farmers will have healthy chickens. At the beginning, we sat together to discuss how we were going to set up a plan. We agreed on the idea of first getting to know more about the subject, we are on that right now. We are investigating the way the chickens are kept in African countries, and we're busy with the research on the common diseases among birds/poultry."

What's up - 2012
